

Matrons' Book

Doctor Martin L. Conney

Infant Incubator Pavilion

"The World of Tomorrow"

1939

Julius H. Hess Chicago - 4/30/1939.

America recognizes you as the pioneer in the successful care of the premature infant.

To Madame Louise Recht your beloved associate all of these little infants are grateful for her efforts in their behalf in teaching so many others how to develop healthy little bodies.

<sup>5/14/39</sup>  
Dr. Victor Henderson, 2616 Kingston Pike, Knoxville, Tenn.  
Dr. Mrs. Charles Hender Smith New York

Dr. Hugh Chaplin.

Dr. Thos. A. Lehmann, Astoria, O. Ill. N. Y.  
Maryand Sullivan, Chicago.

Physiologist Petruskevitch, Prof. of Zoology, Yale Univ.  
finds no words to express his admiration of the work done by Dr. Couney for humanity.

Grace E. Pickford, Albertus Magnus College, New Haven

Mount Tilden, M.D. Jour. Amer. Med. Assn.  
Baby incubators - as instructive as the Hall of Man.

My best wishes to my friend, Dr. Couney.

Arnold Gesell, Yale Univ., New Haven, Conn.  
with appreciation of your generous hospitality & of the pathfinding significance of the work which you have done. We also admire the achievements & devotion of Madame Recht, former associate of the famous Budin.

With sincere appreciation of the work of Dr. Martin A. Couney and Madame Louise Recht who have dedicated their adult lives to the salvage of immature and premature infants.  
Fredrick F. Fiedler

May you, Dr. Couney and Madame Recht, be spared for many years to carry on your marvellous work. No halo would suffice to crown your heads.  
Edwin W. Halladay.

Just a mother who thinks this  
is a great work

Helin Hayes

Dr. Conroy is doing an outstanding job in service  
in saving many babies every year. His methods  
& ethical standards in a physicians atmosphere  
are to be commended.

I hope that Dr. Conroy's work will be  
perpetuated by establishing more premature  
baby stations both to save more human  
lives and teach the proper medical  
supervision. I endorse his strong  
belief in mother's milk for in-  
fant.

Gertrude Felshin M.D.

To Dr. Conroy with a lot of admiration

Peter Hognet

Dr. Conroy's work encourages, stimulates and  
inspires everyone interested in the care of  
premature babies

Meier D. Hill

Wishing a remarkable man many more years  
to continue his remarkable work.

William J. Levine

May your wonderful work be perpetuated.

Thurman B. Giovan

Your work has given us all a stimulation to work harder  
in the care of premature.

Carl H. Loew.

Humanity and the medical profession are  
greatly indebted to Dr. Conroy for saving many  
premature babies and pointing the way for the  
salvation of thousands more.

Edeira W. Holladay.

Heartly Congratulations for your important contribution to  
child welfare.

Abraham T. Martin

Dr. Conroy - who has been responsible for saving  
more lives than anyone I know

Harry Bakwin

A salute to Doctor Conroy and his associates.  
Their work is magnificent and destined to be lasting!

Indira S. Reed

To the pioneer in the care of the premature  
infant in this country and a respected friend of Henry Koplik.  
Loved Henry Koplik.

To a True Friend

If you could picture the joy that you  
have brought into the 8000 homes of the premature  
you have raised you would know that your  
wonderful work was worth while. I hope you  
will continue this excellent work.

J. Schrimme

To Dr. Martin A. Conroy, friend and teacher, with  
best wishes for many more years in the outstand-  
ing work of caring for premature infants.

E. Harrison Nickman

No written words can ever express the ethical and valuable  
work of Dr. M. A. Conroy to the premature infant and the  
medical profession.

L. A. Quinn

Dear Dr. Martin Conroy. Congratulations on the scientific work  
you have done in saving so many premature babies establishing  
such great record

Your friend D. Z. Ritter
